TEA MARKET AFFECTED BY UNCERTAINTY, PRICES GO UP

Many Grades Command 10 To 15 Taels More

DEMAND IS GOOD

Planters Not Deceived By The Present Inflation

BY DAVID ARAKIE

Uncertainties which surround the future trend of China tea prices, particularly as to the attitude of buyers, are reflected in the market today. Compared with the past season many grades of tea have been commanding ten to fifteen taels per picul higher. This has specially been so in the case of medium and better grade Keemuns, and even in the case of other qualities of black teas quotations are still higher than last season. During the past few days a decline of some 50 percent has been registered in black teas other than Keemuns, although the market at the opening of the season was characterised by a very firm tone.

That a trader's market should develop at the conclusion of an upswing of ten to fifteen points and rebound with a downswing of five to seven points appears to be a natural development. It is for this reason that the China tea market had presented a two sided appearance in the course of a few weeks. The future of the tea trade may not be guaged by any such signs which have appeared on the horizon. There is evidence that in some lines, in view of the see-sawing which has taken place, business in China tea is in a better position than it was at the opening of the season a month ago.

Many are inclined to think that the decline may be considered nothing more than a pause in a broad forward movement, with the future depending almost entirely on the manner in which business and financial conditions unfold. It is anticipated that the recent sagging of the tea market is quite a temporary feature.

NOT PRONOUNCED

The downward movement in grades that have experienced declines is not sufficiently pronounced as to foreshadow any general slump in values. Indeed the statistical position seems to indicate an early recovery. There is still a good demand for all useful teas.

The United States has been a good purchaser of Hoochow grade. The market in this opened at some three taels per picul higher than last season, at which price considerable business was done with America, but at the moment of writing supplies have been arriving in increasing quantities from the tea-producing districts and been piling up here. A slackening in the American demand is likely to precipitate a decline, which, although it has not set in, might very likely be experienced shortly, unless the present accumulated stocks are worked off.

The tea industry in China has its ups and downs to a much greater extent than most others, and the Chinese planter is under no illusion regarding the permanence of the present inflation. Throughout the industry's whole existence it has been subject to fluctuations which at times approached the brink of utter collapse. Sometimes, as happened during the recent depression, many Chinese small garden-owners were forced to the wall, and it is during such times that the Chinese tea planter becomes alert to the possibilities of other economic products.

To the uninitiated observer the present situation is a perplexing one. Stocks of tea in England and America are stated to be lower than this time last year. The London trade, from private despatches received in Shanghai and a reading between the lines of brokers' circulars, is none too optimistic. While the past year was a good one for the tea folks the boosted prices that have prevailed ever since the new year are, it is feared, going to prove detrimental. The Mazawattee Tea

Seven Hundred Russian Refugees Expected Here Tomorrow; Cannot Land

Local Authorities Take Steps To Prevent Admission Of Latest Contingent Of Fugitives From North

Over 700 Russian refugees will arrive in Woosung waters this morning on the steamer Eldorado from Japan, according to information received by Chinese official circles yesterday. The local authorities yesterday gave definite instructions that the refugees be not allowed to land. The Customs Commissioner was authorised to disallow the entry of the steamer with the Russians.

The Chinese gunboat Yungchien yesterday steamed out to Woosung with Chev. S. K. Chen, Chief Secretary of the Bureau of Foreign Affairs, on board to stand by when the Eldorado enters Woosung this morning.

This is the second large contingent of Russian refugees to head into Shanghai. Admiral Stark arrived last December with thirteen shiploads of escaping Russians, fleeing from Vladivostok when the Reds took possession of the Northern port. They remained at Woosung for approximately a month, and despite the vigilance of the local Chinese authorities over half of them made their way ashore and located in Shanghai. Today they may be seen selling newspapers, flowers and trinkets about the streets.

Subsequently the fleet, minus several vessels which were sold here, went to Mariveles in the Philippines, where they were held by the Philippine authorities. Many of the Russians secured employment as hemp strippers and the women and children were cared for by the American Red Cross.

About a month ago governor General Wood secured permission for these refugees to enter the United States and about 500 of them were provided with free transportation on the U. S. Army transport Merritt. A special dispatch reported to THE CHINA PRESS that they had arrived at Honolulu en route to the United States the day before yesterday.

Y. Chung, formerly managing-director of the Shanghai-Nanking and the Shanghai-Hangchow Railways in honor of Mr. A. H. Ford, during the latter's recent visit here.

At this meeting, Mr. Ford delivered the message of the Che-Hao Kung Chang Hui in Honolulu and it was unanimously voted to organise the branch. Officers elected since the gathering are K. F. Lum, secretary of the Y.M.C.A., chairman; H. L. Chung and Philip Zane, secretaries; and Francis K. Yung, O. W. Ho, Wm. K. Luke, Wai Yuen-char, P. K. B. Young, Abraham Song Liu, E. T. Lee Toma, Young Tong, C. H. Szau, Andrew F. Zane and M. Y. Chung, members of the committee.

The club will seek to bring added trade relations between China and Honolulu and to make places in China for those young Chinese-Americans who wish to come from Hawaii to work here.

The club is securing a room for its exclusive use and expects to have a membership of 100 Americans of Chinese ancestry living in Shanghai but born in Hawaii.

Doyle Has Chat With Northcliffe, Dead Publisher

(Reuter's Service)

San Francisco, May 31.—Sir A. Conan Doyle says that he has had a message from Lord Northcliffe's spirit, saying that only a wave of spiritual reform can save the world from plunging headlong into a catastrophe which will make the World War seem insignificant.

"The American people," Lord Northcliffe's message said, "are too busy. That was the mistake I made in my lifetime. I was too busy then, but I understand now that wisdom is lost in the scramble for material progress. When men lose wisdom they invite disaster."

Sir Arthur declared that he also had received other messages from the spirit world which verified the statements made by Lord Northcliffe's spirit. Some have even gone so far as to predict that the disaster will descend during his life-time, Sir Arthur said.

It is reported that twenty more Members of Parliament have returned to Peking, but it is not believed that a Parliamentary quorum can be secured.

French Worried Over Grain Crop

Exclusive Dispatch To THE CHINA PRESS

CHINESE, TAKEN IN TRAIN RAID, ARE RELEASED

Former Bandit Chief Frees Fellow Countrymen At Paotzuku

(China Press Service)

Tsaochuang, June 24.—All Chinese captives captured in the raid on the Tientsin-Pukow express last month were released today, says an authoritative report.

Among them are Messrs. Tsin Shih-tseng, Tsin Chin-yuan, Wu Shao-pu, Chuang Chih-chien, Tsao Sheng-cow, Chiao Chi-chun, Liu En-yu, Chuang Chuen-sheng, Chien Kang-chi, Ma Shao-chow, Chang Hua-chien, Chao Yi-tsang, Shen Shih-tien, Wang Yiu-hsun, Li Yung-kwei, Wang Tu, Yen Pao-tsai and Shi Chung-shiu.

Their liberation was due to the intervention of Sun Mei-yao, the bandit chieftain, who has been commissioned Brigadier Commander. Sun protested to the other brigand leaders against their intention of detaining the Chinese victims for ransom.

Sun told Mr. Chiao Chi-chin shortly before the latter's release, "I am determined to effect the liberation of the Chinese prisoners. It would be a shame if we liberated the foreigners without demanding payment but we should not insist upon ransom in the case of Chinese captives. Now that we are no longer outlaws, we will render services to the country."

RELEASE IS ORDERED

Mr. Chiao said that an hour later, a bandit came to his camp with the order that the prisoners were to leave Paotsuku with the official delegate, Mr. Wu Chang-chih.

It is yet unknown when the other captives held before the Linchang outbreak will be released. The officials declare that it will not be long before the remaining prisoners are set free.

The detachment of reorganised bandit-troops under Kuo Chiwei has left the bandit stronghold and is stationed at Kuolichih, about three miles from Tsaochuang. The bandits in their new uniforms present a smart appearance.

Sun has issued an order prescribing capital punishment for anyone who shall steal even an ox from the villagers. One of his cousins was shot yesterday for holding up a woman.

New York, June 1.—The New York Journal of Commerce, commenting on the Tientsin-Pukow railway outrage, says:—

"One thing is certain, and that is the fact that the great powers will not permit their nationals to be injured either in person or property when within the laws in the territorial boundaries of the Chinese Republic. On the other hand, intervention, should it be necessary, would be little short of a calamity not only to China herself but also to the world at large. It would at once arouse all the rivalries and jealousies so dangerous to world peace which were supposed happily to be allayed by the Washington Conference. And there would be especial regret felt in the United States for such action by any power.

"The American people have been actuated by the most friendly feelings towards China and the Chinese, and any backward step upon the part of that country or its people would be a blow to their confidence and faith in the capacity of China for ultimate self-government. It may be necessary for the United States to act,

Two American Missioners Drowned In Yangtsze Near Yochow; Bodies Recovered

T. E. Winter And James Laubach, Of Reformed Church, Lose Lives As Small Boat Capsizes

Special to The China Press

Hankow, June 25.—Mr. James Laubach and Mr. T. E. Winter of the United States Reformed Church, stationed at Yochow City, Hunan, were drowned in the Yangtze sometime Saturday night or early Sunday morning while on route from Yochow to Hankow in a small boat.

The two missionaries left their mission compound at Yochow on Saturday evening intending to reach Hankow for a religious conference on Sunday.

Late on Sunday Chinese river boatmen picked up their two paddles and one of the missionaries' sun helmets floating down river, and upon reporting their discovery in Hankow it was feared they had drowned.

Tonight the American Consulate received a wire verifying the drowning and reporting that both bodies had been recovered. No details have been received but it is assumed that their small boat capsized in the darkness by a larger vessel.

Mr. Winter and his wife have been members of the mission at Yochow for some time.

Mr. and Mrs. T. E. Winter are listed in the missionaries Who's Who, but the name "James Laubach" does not appear.

Other missionaries stationed at the same church mission there are Mr. and Mrs. W. F. Adams, Miss H. Ammermann, Mr. G. Bachman, Mr. and Mrs. E. A. Beck, Miss M. P. Firor, Miss G. B. Hoy, Mr. and Mrs. W. E. Hoy, Mr. P. E. Keller, Mr. and Mrs. H. R. Lequear, Mr. and Mrs. J. W. Owen, Miss T. M. Shaak, Miss A. E. Traub, and Mr. and Mrs. S. W. Whitener. The Reformed Church is the only mission at Yochow City.

DRY AGENTS IN U.S. CONTINUE RAIDS ON FOREIGN SHIPS

Newspapers Express Hope Congress Will Act To Act

Exclusive Dispatch To THE CHINA PRESS

Madison, Wis. June 25.—The Wisconsin state senate today killed the bill which the assembly had previously passed repleasing the state prohibition enforcement act.

(BY UNITED PRESS)

New York, June 25.—Prohibition leaders here who have been taking an active part in the agitation leading toward the seizure of stocks of sealed liquors on board foreign vessels entering American territorial waters allege that ships are bringing in gigantic stocks of liquor despite the seizures instituted by the Federal prohibition and customs officials.

The shipping companies, the prohibition leaders allege, plan to have the seized liquor returned to them when the question is settled between the various governments and the United States and sell it to bootleggers at excellent prices as it is all of the best European brands of whiskies, brandies wines and champagnes. If the shipping companies do not sell it in the United States, the prohibitionists say, they will sell it to rum runners outside the three mile limit on return voyages.

The shipping companies, through their government's diplomatic representatives, have formally protested against seizures but apparently do not intend to stop carrying liquors inside the three-mile limit thus forcing diplomatic discussions of the question.

(Reuter's Service)

New York, June 25.—The liners, Caronia, Cedric and Providence, arrived here today with large stores of liquor which will be seized. The Cedric's "wet" goods were listed as "surplus medical stores." The Providence asked permission to use 265 litres of wine and 24 bottles of brandy as crew rations, but the medical authorities allowed only 195 litres of wine and two quarts of brandy and sealed the remainder until it has been decided how much to allow for the homeward voyage.

The Italian liner, Conte Verde, brought 2,000 gallons of wine unsealed and claims that the wine is required for the crew and third class passengers.

Mr. Haynes, the Prohibition Commissioner, announced that the Government was determined to carry out the policy of seizing liquor as it arrives.

The New York Times and the New York World express the opinion that the Government is in an unpleasant situation and that only way of escape is through Congressional action.

French Editor Sees New Failure

(French Wireless through Reuter)

Paris, June 23.—The Intransigeant emphasises that the German semi-official note published yesterday does not appear to be calculated to make negotiations a success. The German Government declares that it cannot accept an inter-Allied regime in the Ruhr and the transformation of the military occupation into a technical alliance of a pacific nature.

The Temps recalls the present manifestation of German economic activity. The German newspapers themselves emphasise the importance of the work undertaken. Photographs published by the Frankfuerter Zeitung show that important ammoniac factories are being constructed. The Temps points out that Germany by depreciating her currency in order to increase her exports is enriching herself by the devastation of other countries.

DE JURE RECOGNITION OF SOVIET BY JAPAN IS NOW ANTICIPATED

Discussions Between Representatives Of Two Governments Continue At Moscow On "Satisfactory Basis Of Mutual Concessions;" Tokio Newspapers Predict All Issues Will Be Adjusted

(Reuter's Service)

Moscow, June 24.—The discussions between Russia and Japan on pending questions, principally that of Saghalien, have been resumed on a basis of mutual concessions.

Prompt de jure recognition of the Soviets is prognosticated.

It is announced that the area of cotton plantations in Turkestan will be considerably increased.

(Reuter's Pacific Service)

Tokio, June 18.—The announcement of M. Joffe's formal appointment by the Moscow Government as Soviet plenipotentiary in the preliminary pourparlers with a representative of this Government has revived public interest in the question of restoring commercial relations with Russia.

The possible outcome of these preliminary negotiations is discussed by the leading Tokio journals this morning, all of which agree in the opinion that the conversations about to begin afford more ground for hope that the outstanding questions between the two countries will be satisfactorily solved.

Several of them, notably the Jiji, emphasise the advisability of a mutual sacrifice of minor claims and conditions in order to reach the desired conclusion.

The Jiji claims to have learned from an authentic source that the Government, in the belief that the re-establishment of friendly relations with Russia will be of benefit to both countries, enters upon these discussions with a sincere desire to reach a basis of agreement that will pave the way for the opening of a formal conference with Russia.

The Metropolitan Police authorities have decided to attach a special guard to M. Joffe, who has been recognised now as the representative of the Soviet Administration.

Harding Turns Farmer For Day

Exclusive Dispatch To THE CHINA PRESS

[illegible] June 24.—[illegible] newspaperman, statesman and 'white-collared slave'—turned farmer for one day today.

Arriving here in the center of the West Kansas grain belt, the President drove into nearby wheat fields, shed his coat, rolled up his sleeves and assisted in the harvest. For a short time he drove a binder, and then descended from his high estate and shocked grain by hand.

During his visit to several nearby wheat farms he obtained considerable first-hand information of problems confronting the wheat farmers of the nation by talks with the farmers themselves.

In the second speech he has scheduled for his swing across the country the President declared he was delivering a message of optimism to agriculturists of the Middle West by making the prediction that the depression had passed and that there was a gradual improvement in the situation.

As indicative of the better conditions now prevailing the President called his audiences attention to the fact that the farm products of the United States were valued at two billion dollars more in 1923 than they were in 1921.

Lumber Company Suing Jardine's On Claim For $98,158

Pleadings were ordered yesterday by Judge Sir Skinner Turner of the British Supreme Court in a suit brought by the China Import and Export Lumber Company against Messrs. Jardine, Matheson and Co. for $98,158.65 alleged due.

The China Import and Export Company also claimed in the alternative this sum as money payable by Messrs. Jardine, Matheson and Co. to the China Import and Export Lumber Company under a contract in writing dated December 11, 1916 and extended from time to time and now in force. In further alternative the plaintiffs claimed the same sum as damages for the defendants alleged breach of contract.

Mr. C. Mansel Reece appeared for the China Import and Export Lumber Company and Mr. D. McNeill for the defendants.

HARDING TO ASK LIMIT ON RADIO DRIVEN AEROS

President Fears Inventions Endanger Conference Result

(BY UNITED PRESS)

Special to The China Press

Washington, June 25.—It was learned today that President Harding plans to submit to the Senate a proposal for a treaty to be entered into between the United States, England, France, Italy and Japan for the regulation of wireless controlled aircraft and the prohibition of night bombing of cities in time of war.

The action of the President is said to have been impelled by the rapid growth and development of the aircraft industry, especially the development of inventions which it is feared would endanger the beneficial results obtained at the Washington Conference.

The limitation of aircraft was discussed by the various Powers at the Washington Conference but action was delayed because of the agreement entered into by the principal powers which recited that the time was not ripe for such limitation but that the entire question would be considered at some later date.

NO CONFERENCE

President Harding's proposal of a treaty covering the regulation of wireless controlled aircraft and the prohibition of night bombing is expected to give rise to interesting discussions on the subject, but it is thought that the questions can be settled through the usual diplomatic channels without a conference being necessary.

All the Powers are said to be agreed on the prohibition of night bombing because of the fearful results such destruction has on innocent non-participants, principally women and children. Despite the best intentions of bombers during the world war hundreds of innocent women and children were killed in their beds during night bombing raids. The question of wireless controlled aircraft is considered important at the present time because of the remarkable developments that have taken place recently. At the time of the Washington Conference it had not assumed the importance it now has.

BANDITS INVADE KULING; SPECIAL PATROL ORDERED

Soldiers To Make Extra Effort To Protect Foreigners

(Independent News Service)

Hankow, June 22.—Following the military operations of the past few years, brigands have been in Kuling. Even at Lien Kwa Tung and Chikung Ling in the vicinity of Kuling, there have been cases of robberies by armed brigands.

As summer has set in, the number of foreigners proceeding to their summer houses on Kuling is growing daily, and as a consequence the British, American, Russian and Japanese Ministers in view of the Lincheng outrage addressed a joint note to the Ministry of Foreign Affairs requesting that special protection be extended to the foreign residents on Kuling. The Ministry decided that the vicinity of Kuling be divided into four sections; twenty soldiers and police to be stationed at each point. They will be fully armed and will patrol the place in turn. If anyone is met with arms within the area he will be considered as a brigand.

Roy Anderson, Bandit-Tamer, Arrives Here

Mr. Roy Anderson, the American negotiator who secured the release of the foreign captives held by the Shantung bandits, arrived in Shanghai yesterday and is sailing today on the Admiral liner President Grant for Hongkong.

Mr. Anderson returned to his home in Peking following the release of the captives after a month's night and day work on his part, and interested himself in attempting to secure the release of the Chinese captives through governmental action.

Mr. Anderson, who modestly relegates himself to the background concerning his important part in the negotiations, had nothing to say for publication when seen by THE CHINA PRESS.

Mr. 'Jeff' Holzer, the popular purser of the President Grant, however, said a mouthful when he learned Anderson was sailing on the Grant.

"He gets the bridal suite or anything he wants," said Holzer. "He's the kind of two-fisted he-man we like to have travel with us."

Mr. John K. Davis, the American Consul, who represented the United States during the negotiations at Tsao Chuang, is expected to return to Shanghai today. Mr. Davis went to Peking to make a personal report to Dr. Jacob Gould Schurman, the American Minister, following the release of the captives.

BANDITS ROB TRAIN

(Reuter's Pacific Service)

Peking, June 25.—A robber outrage is reported to have occurred on the South Manchurian railway on June 22. It appears that four Chinese, who were disguised as passengers, when the train was between Shaho and Shihliho drew out revolvers and drove the conductors into a small room. They then closed the doors at the front and back of one carriage and started firing at random. They took all the jewellery and valuables from the fourteen passengers on this coach. The robbers got off the train when it slowed up at Shihliho and disappeared into the darkness with their booty. A Japanese conductor and a Chinese passenger were seriously wounded, the former in the chest and the latter in the side. The condition of both is reported to be dangerous.

The Dog Watch

By Westa

Westa

THERE is a Russian play called "The Lower Depths." It preaches a philosophy of pessimism—a gospel of hopelessness. The story of the play concerns a group of men who lived in a cellar, and who talked all the time about getting out and bettering themselves. But they never did. They all died in the cellar, miserably.

* * *

YOU know, that's the trouble with a good many of us, most of us, in fact. We always are going to do something big, but we never do. We all talk to ourselves a good deal about the things we are going to accomplish, or try to accomplish, and then fail all too frequently to even attempt their accomplishment. You see men riding along in rickshas with intense looks on their faces and their lips moving, and nine times in ten the thing they are talking to themselves about is what they are going to do to improve themselves, or their business. You do it. I do it. We all do it. And too often that's as far as we get. Somebody comes along with an invitation to a mah jongg game, or an auto ride, or to go see the big tennis match, and blooey, there goes the old resolution.

* * *

GEOGRAPHY has a great many more ramifications than most of us dreamed of when we studied it in school, and I, for one, always have held it rather against Mr. McGuffey that he compiled his volume more with the idea of enabling us to fix the location of certain places on the map, like, say, Cape Verde or St. George's Channel, than with what should have been the more important aim of stressing the influences of geographical divisions, and pointing out their relationship to certain fundamental human reactions.

You take this goof that wrote "The Lower Depths," for instance. The probabilities are that he sprang from a line of Slavic ancestors who spent all their lives contemplating the desolate steppes, or shivering in the bitter winds that swept down over the endless snows from Nova Zemlia or the Taimyr peninsula, or shuddered of nights as the ravenous wolves howled. Such a man naturally would look to a dark cellar for his literary themes, and draw mental pictures of a lot of weak fools talking uselessly and dying miserably there.

* * *

THAT man, however, did not live in vain, nor did he write his play uselessly. On the contrary such a play teaches a strong lesson, which is good evidence that geography has a universal application, a point that Mr. McGuffey neglected to emphasize. For we all need to be reminded occasionally that we do altogether too much talking and planning for ourselves, and that we fail to translate all this wallawalla and scheming into action, which after all is the thing that counts.

And what a vivid picture the Russian gives us—a picture of a lot of men living in a cellar and always talking about getting out and bettering themselves, but never doing it, and finally dying there. Isn't that enough to make us ashamed of ourselves for lazily passing up the many opportunities that we have allowed ourselves to miss in days gone by? I'll say it is.

* * *

SO let's all buck up. A'ong about this time of year it is so easy to say to ourselves: "Oh, well, a guy can't do much work with the hot weather coming on; guess I'll wait a couple of months."

That is the complete bunk. It is just as easy to beg'n now as later on, hot weather or no hot weather.

I never saw that Russian's play, "The Lower Depths," but merely reading about the theme of it gave me a tremendous kick. So much of a kick, in fact, that I decided to get busy and grind out a bunch of Dog Watches, whether anybody other than the patient Princess reads them or not.

Darned if I'm yearning to die in the cellar, miserably.

* * *

PRIVATE note to Larry: Hey, Ol' Timer, where are those Chin Chin colyums you've been talking about but never writin'? Do you want to kick off in the cellar, miserably?

200 Peking M. P.'s Migrate To Tientsin

Peking, June 28.—About two hundred legislators, who are not affiliated with the Chihli faction, have gone to Tientsin. They have issued a manifesto, declaring that the Capital is being dominated by the recalcitrant militarists. The Parliamentarians cannot function in Peking, it says, and so they have left for Tientsin.

It states that during the interregnum, Parliament will be reconvened at Shanghai for the purpose of drafting a permanent Constitution.

It repudiates any acts done by the Cabinet since June 14 and emphasises that the dismissed Cabinet Ministers have no right to assume the Chief Executive's duties.

In connection with the political crisis, General Wu Pei-fu has telegraphed to Peking, repudiating the message which was alleged to be dispatched by him, urging the legislators to hold the Presidential election. The authorities concerned are asked to investigate by whom the forged telegram was issued.

General Wu's repudiation of the message has greatly embarrassed the Paotingfu clique, for it is generally interpreted as indirect opposition of the Loyang potentate to the electoral campaign conducted by General Tsao Kun's adherents.

Many attempts have been made by the Parliamentarians at Peking to persuade the opposition party to return to the Capital but in vain.

Mr. Wu Yu-lin, Minister of Communications, has proceeded to Tientsin to consult Premier Chang Shou-tseng with regard to the latter's resumption of office. Premier Chang has been reluctant to return to Peking, in view of the opposition of Mr. Kao Ling-wei, Minister of Interior, and a henchman of General Tsao Kun.

Peking, June 24.—It is reported that Dr. Wellington Koo will issue a circular telegram tomorrow announcing his assumption of office as Minister of Foreign Affairs.

Dr. Koo's intimates, however, declare that the report is ungrounded. They say that up to the present, Dr. Koo has persistently declined the portfolio of Foreign Affairs.

Peking, June 23.—According to a reliable report emanating from Parliamentarian circles, the Presidential election will be held on July 26. Meanwhile the legislators will attempt to complete the drafting of the Constitution. It is so arranged that the Constitution will be promulgated on the morning of August 1 and the new President will be inaugurated the same afternoon.

Mr. Tang Tien-chi, General Tsao Kun's special delegate, has arrived here from Paotingfu with additional funds to finance the electoral campaign.

"My Lady Friends"

Last night the T. Daniel Frawley Company played "My Lady Friends" at the Lyceum. The show is a "snappy" modern American farce. It has any number of sure-fire lines and was deserving of even a better house than turned out for it, though the house was more than a fair one for this season of Shanghai's year.

The production deals with complications resultant from the indiscretions—purely exuberant—of a young capitalist who has too much money to be able to disburse it rationally—and the complications are many and ludicrous. In the part of the young monied man Mr Barnard Nedell was comically consistent and as his legal advisor and co-conspirator Mr. Herbert Light was equally good. But the honors of the evening go to the feminine side of the cast. Principally to Miss Betty Barnicoat and to Miss Florence Roberts, though Miss Adele Blood, as the wife of the principal offender, and Miss Dorris Kemper, were both excellent in their parts.

Miss Florence Roberts, as the philosophical maid, was a delight every time she appeared on the stage and Miss Barnicoat's happy mixture of sophistication and sentiment was most gleefully received. Only one suggestion to make—the show—and it should be repeated here—should be slowed down just a wee bit. The lines came over just a little bit too fast to get the desired effect at times. Admittedly it is one of those rapid-fire vehicles. But we in Shanghai don't like to miss lines and just a little more deliberation—with the fire retained—would work wonders.

Tonight "Smilin' Through" is the bill. A good show and deserving of a big house.

Venomous Insect Bites

Zam-Buk Prevents Poisoned, Disfiguring Sores.

Nothing can equal the magical herbal balm—Zam-Buk—as a soothing, speedy remedy for the bites of mosquitos, spiders, leaches, sandflies, scorpions, etc. An application of Zam-Buk is instantly cooling and powerfully antiseptic. It removes poisonous matter, subdues smarting irritation, swelling and inflammation.

Those painful disfiguring rashes, sores and swellings, brought on by the heat are also readily cured by Zam-Buk. Apply on retiring at night, and the soothing herbal essences will speedily comfort and purify your skin. Zam-Buk is equally good for healing sore feet, abscesses, ulcers, etc.

From G. H. Q., Baghdad, T. F. Duke, writes:—"Sandflies and mosquitos make life almost unbearable out here, and I got badly bitten on the legs, feet and arms. Even the first few applications of Zam-Buk soothed the smarting irritation, subdued all inflammation. When other sufferers were in hospital my persistence with Zam-Buk resulted in the poisoned skin being thoroughly purified and healed."

Zam-Buk is obtainable of chemists and medicine dealers in Shanghai, Hongkong and Throughout the East. Direct from agents Messrs Wakefield & Co., 60 Kiangse Road, Shanghai.

Japanese Take Final Of Series From Gallopers

The series between the Shanghai and Dai Mai baseball teams ended Sunday with another victory for the visitors, giving them five out of the six games. The score was 4 to 2.

The homesters got away to a flying start in this game, scoring two runs off Igawa, after which Ono supplanted him. That stopped the locals completely. The Dai Mais scored three in the seventh, on two hits and a couple of errors. That put it on ice.

In the evening the Japanese players were entertained at dinner by the Shanghai baseball club, at which a fine time was had by all. Mr. Y. Ikeda, of the Eastern News Agency, made a splendid talk at the dinner, in which he stressed the fine sportsmanship that had been shown in the games just concluded. His address follows:

Gentlemen: It is a great pleasure to me that I have the honor speaking on behalf of the Japanese baseball committee. Well, a Japanese proverb says: "It is not in mortals to command success." Indeed, victory or defeat matters very little to real sportsmen. The most essential point is good sportsmanship, and I am very happy to say that the attitude of the members of both teams, Shanghai and Dai Mai, is most commendable. They have played all the games splendidly and manfully throughout.

It is striking that an atmosphere of friendship and cordiality reigned among all who were present on the grounds and in the stands.

Our presence here in such large numbers and the evident enthusiasm which prevailed at all our gatherings is the best possible proof that the scientific game of baseball, which is a credit to the American people is, I declare, the king of all modern sports. In fact, nothing more appeals to the young generation of the Island Empire than the game of baseball, which is fast supplanting our national game and is steadily insinuating itself into the affections of the whole nation of Japan.

I welcome this tendency, for in many respects our national game, I honestly admit, cannot hold a candle to the American national game, which requires concerted strategy and co-operative action, whereas our national game is nothing but an individual contest. Well, apart from the merits of the national games of the two countries, I want to take advantage of this opportunity to express our sense of deepest gratitude to our American friends who invented such an interesting game as baseball, and who have been so good enough to coach us Japanese to play the game.

The sport, in itself, has no political aspect whatever but when we see, as we have seen, that different peoples like Americans and Japanese play the game together in such a friendly and sportsmanlike manner, I cannot help thinking that we have done something towards extending mutual understandings, and also towards promoting friendly relations between the peoples of the two countries, particularly between American and Japanese communities in Shanghai.

BOXING SATURDAY

The boxing program that is being arranged for the Stadium next Saturday night promises to be a good one. The wind-up will bring Charlie White and Nick Boyle together in a ten round go, and as these boys are both good boxers the match ought to be a good one. Nick has been training faithfully and promises to give a good account of himself.

A good card of preliminaries is being arranged.

The Stadium management believes that the shift from Friday to Saturday nights will make a hit with the fans. It is planned to start the bouts a bit earlier, so that all will be able to get away at a reasonable hour.

Dai Mais Defeat Local Japanese

BANK'S CRICKET ELEVEN VICTORS OVER EWO, 127-78

Maxwell And Raikes Big Point Winners For Wayfoong

Elevens representing Wayfoong and Ewo hongs met Sunday on the S. C. C. ground when the former ran out winners by 49 runs. The match was watched by a fair number of spectators. Wayfoong, for a time, looked like putting up a bigger score, but they struck a bad patch just before the century was reached and had to thank Fuzzey for some brisk hitting, which took the score well over the 100 mark. Mansell and Raikes both batted well for 39 and 40, respectively.

Ewo should have done better on an easy-paced wicket, but some of their batsmen were too impatient and paid the penalty of being out in trying to hit balls which they should have been content to play. Carr, Lachlan and Thompson batted well and Mancell got himself out with a poor stroke when he looked like making a lot of runs.

The scores follow:

Metals Sales Registry No Longer Needed

The Prime Minister of Australia, Mr. S. M. Bruce, has announced that in the future it will no longer be necessary for the Australian Metal Exchange to register contracts for the sale of metals according to information received by the Australian Trade Commissioner. Mr. Bruce stated that this action has been taken because of the present conditions of trade.

In the past registration has been a condition precedent to the granting of permits to ship by the Customs. The work has for the past eight years been done gratuitously by the Australian Metal Exchange for the Government. It was only after much discussion that the exchange was last year persuaded to carry on the work for a further year.

In future, the usual information will be furnished by exporters to the Collectors of Customs, and permits to ship will then be immediately given. There has been for some years, and still is, a free market for metals, but in view of the state of the base metal industry at the outbreak of war these precautions are still deemed necessary by the Australian Government to prevent the industry against falling into the hands of foreign control.

CLAIM ADJUSTED

Stating that he had received commodore orders for the amount claimed, Tls. 1,277, including costs, Mr. K. E. Newman applied in the British Supreme Court yesterday that an action brought by the China Merchants Bank against T. E. Poignand be adjourned sine die. Judge Sir Skinner Turner said he would adjourn the case one week and if within that time no application is made it will be struck off. The claim was for Tls. 1,200 on a promissory note with interest.

The annual meeting of the Association of Lancastrians in China was held last Friday at 33 Szechuen Road. Mr. R. Grimshaw, Vice-President, took the chair.

Referring to the accounts, the Chairman said that there was a balance of $327.29, while a sum of $167.23 was in the Municipal Investment Bank. The benevolent account showed an increase over the past year accruing from interest on debentures in the Municipal Investment Bank. This account showed a balance of $1,871.86.

Speaking of the events of the Association, the Chairman said that the time for the annual dinner was past, but though this matter was always left to the Committee a recommendation could be given that the dinner be held over until more favorable weather. With reference to sports they had run the Shanghai Cricket Club very closely, being beaten by two runs only. Mr. E. C. Barnes was at present endeavouring to arrange games with the Cricket and Recreation Clubs. They also hoped to renew their acquaintance with the Lawn Bowls Club. He also referred to the death of Mr. A. E. Piercy with much regret.

Mr. H. W. P. McMeekin proposed that Mr. R. Grimshaw should be elected President. This was seconded by Mr. N. W. Scott, and received with acclamation. Mr. H. W. P. McMeekin was elected Vice-President and Mr. L. A. Harrap re-elected as hon. secretary and treasurer. The committee was chosen as follows:—Mr. E. G. Barnes, Mr. H. H. Holgate, Mr. H. W. Pilcher, Mr. W. N. Scott, Mr. R. W. Wells and Mr. T. M. Yates.

The Chairman further suggested that a letter should be sent to the former President, Mr. C. W. Beswick, expressing the Society's appreciation for his services and wishing him and his family the very best of health and good luck in the Old Country.

Votes of thanks to Mr. L. A. Harrap, hon. secretary and treasurer, and to the new President were passed.

Obituary

MR. D. L. J. ALLEMAO

The Portuguese community of Shanghai lost another of its old members, when Dulcino Luiz de Jesus Allemao was laid in his final resting place at Pahsienjao Cemetery yesterday afternoon at 5:30. The funeral ceremony, performed by the Rev. Father Van Dosselaere, was attended by the immediate family of the deceased, children and grandchildren, and by old friends who had known him for the past thirty or forty years.

Born in Hongkong on June 21, 1846, Mr. Allemao upon completion of his studies joined the firm of Brandao and Co., Portuguese merchants of Hongkong. With this company he remained for thirty years, leaving them at that time to come to Shanghai.

A resident in this city for more than 28 years, Mr. Allemao had many friends, and became a familiar figure with the older members of the community. Ever popular, Mr. Allemao began to be missed among his friends, when a little over two years ago he became bed-ridden. The brave fight came to an end Sunday morning at 4:30 when he passed away.

Tea Market Hit By Uncertainties

(Continued from Page 1)

Company gives an inkling of this opinion.

QUOTATIONS OFF

Owing to large stocks being held in foreign markets bought on a lower franc exchange the quotation for Chun Mee teas has declined five points. In other words, after opening at the beginning of the season at some five taels per picul higher than last year this time, the price reverted to the standard of the last season. Quite a business has been done in Sow Mees on last season's basis, and the market is firm for the better qualities. Stocks of both black and green tea in Shanghai are fairly heavy.

Present supplies are distributed as follows in the case of black teas:—Keemuns 21,076 half-chests, Kiukiang Teas 22,062 half-chests, Hankow Teas 100,000 half-chests, and Wenchows 4,695 half-chests. Arrivals of Wenchows have been heavy, with prices steady at between Tls. 24.75 to Tls. 29.50 per picul. Keemuns are changing hands at Tls. 35 to Tls. 63, and Tls. 80 for the best chop. In Keemuns the arrivals during the present season so far have amounted to 66,927 half-chests, business for 45,851 half-chests being settled. Of the 27,045 half-chests of Kiukiang teas already arrived on this market 4,983 half-chests have since been booked, while of the 240,000 half-chests of Hankows almost 140,000 half-chests have been contracted by exporting houses, and in the case of Wenchows 7,043 half-chests have been transacted out of a total arrival of 11,738 half-chests.

GREEN TEAS

For green teas the statistics are as follows:—Hoochows, arrivals since the opening of the season 45,132 half-chests; settlements [illegible] half-chests, and stocks 24,535 half-chests. Chun Mees, arrivals 16,901 half-chests, settlements 2,953 half-chests and stocks 13,948 half-chests. Foong Mees 597 half-chests arrived, of which 83 half-chests have been booked. Gunpowder 2,521 half-chests arrived since the beginning of the season of which 564 half-chests have been sold, while 2,686 half-chests of Sowmees were sent down to Shanghai, and 1,325 half-chests were transacted, leaving on hand at present some 2,361 half-chests. Chunmees are quoted at Tls. 43 to Tls. 85 Gunpowder at Tls. 47 to Tls. 50 with better grades commanding [illegible] and Sowmees at Tls. 12 to Tls. 27.

The 1923 British Budget has brought no re[illegible] during for the tea trade, and the suspense for the London tea trade is over. Although there was really no expectation of a reduction of duty on tea before the Budget was introduced in the British House of Commons, tea buyers had stayed their hands for some little time before the Budget, and withdrawals from bond were very heavy. These anticipations have failed to materialise.

I. S. S. Net Premium Income Fcs. 6,085,008 For 1922

The fourth ordinary general meeting of the Assurance Franco-Asiatique was held at the I.S.S. Building on June 20, 1923.

The Rev. Pere Sallon presided, supported by Messrs. J. Beudin, R. Fano, J. Sauvayre, directors, and other shareholders. The notice convening the meeting having been read, the chairman said:

"In conformity with the Articles of Association of the Company, we beg to present you for the fourth time the accounts of the Company and submit to your approval the Balance Sheet and Profit and Loss Account for the twelve months ending 31st of December, 1922.

"The net premium income for 1922 was Fcs. 6,085,008.76 against Fcs. 3,047,503.77 in 1921.

"Claims paid and to be paid amount to Fcs. 2,284,216.03.

"After adding interest and other credit balances, and deducting general expenses, commissions, etc., etc., the Profit and Loss Account shows a credit balance of Fcs. 3,827,913.22 from which a reserve of Fcs. 2,434,003.50 for unexpired risks, equal to 40 percent of the net premium, has to be provided. A balance of Fcs. 1,395,909.72 is thus left and the Directors recommend to allocate it as follows:

	Fcs.
20 percent to Legal Reserve	278,781.94
To depreciation of Furniture and Fixtures	13,759.61
To put to Special Reserve	1,000,000.00
To carry forward the balance	101,368.17
	Fcs. 1,393,909.72

"During the course of the past year, we organised the Fire Branch in Paris with a capable staff to develop and control business in France, Algeria, Tunis and Morocco, and, in order to give to that branch the maximum facilities, we purchased for Fcs. 935,966.85 a building situated at 85 Rue Saint-Lazare, Paris, for use as the home office for Europe. We have no doubt that the new branch will give us appreciable results.

"Before proposing the adoption of the report and accounts, I shall be glad to answer any questions to the best of my ability."

No questions were asked and the following resolutions were carried unanimously:

Resolutions 1 and 2 proposed by the Chairman, seconded by Mr. Fano:

1.—That the report of the Directors and statements of accounts for the year ending 31st December, 1922, as presented, be accepted and passed.

2.—(a) That Fcs. 278,781.94 be carried to the Legal Reserve

(b) That the furniture and fixtures be written off to the extent of Fcs. 13,759.61.

(c) That a special reserve of Fcs. 1,000,000 for emergencies be created.

(d) That Fcs. 101,368.17 be carried forward.

Resolution 3 proposed by J. Beudin, seconded by Mr. J. Donne, that Messrs. J. Sauvayre and Tsen Yui-tsun be re-elected Directors.

Resolution 4 proposed by Mr. J. Pasquier, seconded by Mr. L. Lion, that Messrs. Seth, Mancell and McLure be re-elected Auditors for the year 1923.

Resolution 5 proposed by Mr. A Fabre, seconded by Mr. Ed. Charlot, that M. du Pac de Marsoulies be re-elected Legal Adviser for the year 1923.

In proposing the second Resolution (c), the Chairman pointed out that notwithstanding the fact that it was possible for the Company to pay a dividend it was advisable to create a reserve for emergencies, thus continuing to follow the conservative policy which had been the aim of the Company since its inception.

This terminated the proceedings and the meeting rose after a vote of thanks to the Chair.

OVER 6,000 VISIT EXHIBITS OF THE Y.M.C.A. SCHOOLS

The Chinese Y.M.C.A. held during Friday and Saturday an exhibition in the lobbies and series of programs in the halls designed especially for the parents of the students and their friends.

Six thousand people visited the lobby and halls of the Association to see the demonstrations of work that students of the Day, Evening and Extension schools are doing. There were note books, special exercises, drawings free hand and mechanical, water colors, woodwork, and wireless apparatus, all made by the students themselves under instruction of teachers in the schools.

Together with the exhibitions were a series of programs in the hall. On Friday afternoon Rev. T. N. Tsu, pastor of the church of Our Savior spoke on the "School and the Family." Friday evening Mr. H. S. Liu, of the Kailan Mining Administration, spoke on the "School and Business Interests." On Saturday afternoon Rev. K. T. Chung, General Secretary of the China National Christian Council spoke on the "School and Society" and Saturday night the closing address was given by W. W. Lockwood, of the Y.M.C.A., on the "School and Government."

In connection with these lectures demonstrations were given by students of the day and evening school in the use of calculating machines, typewriters, and in free hand cartooning. This latter feature attracted a good deal of attention.

"Is this the time in China to Introduce Coeducation," was argued in the affirmative and negative by the teams from the Association High School on Saturday morning and decided in the negative, the judges being three leading literary men of Shanghai.

One feature of the program that attracted wide attention was the swimming contests of the students held in the pool. With this was an exhibition of the gymnasium work being conducted among the students. The gymnasium was also used to stage a very spirited contest in ping pong which is the rage among the students of many schools in Shanghai at the present time.

The attendance at the building for these two days exceeded 6,000 and among these were students and teachers from all this section of China, who welcomed this opportunity to see the work of the Association schools demonstrated. The past year the combined enrolment of the Association schools of the Shanghai Association was 3,486. This includes both day and evening schools in the building and outside.

The Association High School closes on July 7. The Evening School of Commerce finishes its term July 17. There will be a special make-up summer school held during the mornings of July and August open especially to students who are trying to make up credits in one or more subjects so as to get their classification in the Associat on or other schools.

Moro Girls To Have New School

Wealthy residents of Atlantic City and other eastern cities are raising a fund of $1,000,000 for the establishment of a school for Moro girls in Jolo, according to information received in Manila.

The new school will be modeled along the general plans of the Willard Straight school for Moro boys, at Jolo. This school has been in operation for many years and furnishes a general education to the Moro boys to fit them for modern life.

Agriculture is emphasised in the Willard Straight school. Industrial and general household arts will be taught in the girls' school.

The Willard Straight school was established and is kept up by wealthy Atlantic City residents. It has been successful in its work among the Moro boys. Attendance is limited to selected Moro boys.

Mrs. Spencer of Atlantic City, one of the most interested patronesses of the school, is in Jolo at present inspecting the school and inaugurating new plans. She is scheduled to return to Manila on her way to the United States soon.

Mrs. Spencer believes that the Moros are not treated properly by the Philippine government and this causes the occasioned outbreaks credited to the Moros. The laws are in violation of certain harmless customs of the southern people, she believes, and they naturally rebel.

Mrs. Spencer is paid great homage when she visits in Jolo. She is said to have great faith in the future of the "wild" people and is doing everything in her power to better their conditions.

Exchange Fluctuations

Asia Banking Corporation

June 25, 1923

Spot bar silver was down 3-16d. in London on Saturday and forword ⅛d. The New York price declined to 64¼ cents and the London-New York cross rate to 461½. Our official Sterling rate at the opening was dropped ¼d. but as our market was very weak it was subsequently dropped another ¼d. to 3/0¾.

The Gold Dollar rate then being dropped to 70¾, the Yen rate raised to 69½ and the other rates changed accordingly.

While our market at the opening was steady it became very weak in the course of the morning and at the Tiffin interval there were no sellers of Sterling at better than 3/1⅛ for June delivery, 3/0⅞ for July and 3/0⅝ for August.

There were no sellers of Gold Dollars at the same time at better that 71¼ for June, 71 for July and 70¾ for August.

In the afternoon the market steadied up and at one time became somewhat firm with sellers of Sterling at 3/1⅛ for June, 3/1 for July and 3/0⅞ for August.

A fair amount of business in Gold Dollars was done at 71½ for June delivery, 71¼ for July and 71⅛ for August.

However just before the close the market eased off again but closed steady with sellers of Sterling at 3/1⅞ for June, 3/0⅞ July and 3/0⅞ August.

There were sellers of Gold Dollars at the close at 71⅝ June, 71⅛ July and 71 August. There were sellers of Yen at 68¾ for June delivery, 69 for July and 69¼ for August.

Banks were quoting 3/1¾ for Sterling bills for near delivery and 3/1½ for forward.

They were quoting 73 for Gold Dollar bills for near delivery and 72½ for forward. There were buyers of Franc bills at 1175.

The continent sold silver in London on Saturday and the market is reported as closing steady. New York report their market as easy.

Trotsky Backs Down

(New York Times)

WHEN the Russians first received Lord Curzon's ultimatum, it looked as if the Napoleonic Trotsky might try to turn a celebrated nursery rhyme into the war cry of all the Russias. His vituperative threats of imminent destruction for the British Empire sounded much like the giant in Jack-and-the-Beanstalk. Fortunately for the Englishman whose bones were to be ground to make Russian bread, it turned out that Trotsky took a sedative. Instead of forthwith dispatching his armies to annihilate the British Isles, he allowed Litvinoff to send a reply that was at the same time argumentative and conciliatory. But as soon as he found that this was not acceptable he instructed the Soviet representative in London to hand to Lord Curzon a memorandum which granted nearly everything the British Government had demanded. Thus was the break of relations between Russia and Britain averted, and the Soviet high horse put back in the nursery.

In the matter of reparation for the injury and death of British subjects the Soviet authorities surrendered. So they did in paying damages for injuries to British trawlers. They also recognised the three-mile limit as the extent of Russian territorial waters until the matter could be permanently adjusted, and agreed not to molest British trawlers outside of this limit. Furthermore, they have meekly withdrawn the "insolent" notes of Weinstein, who, in the name of the Bolshevist Government, had protested against Great Britain's attitude in the matter of the execution of the Catholics. Only as to the last of Lord Curzon's points, which dealt with propaganda, did they give what may well be considered an unsatisfactory reply. They reiterated their innocence and demanded anew that the problem be submitted to a conference of British and Russian representatives. The charges of Lord Curzon that in Persia, Afghanistan and India the Bolshevist agents had been deliberately undermining British prestige for political purposes they declared to be altogether unfounded.

This last question, although ostensibly less important, is of great significance to all who, like Lord Curzon, know India. The vision of Russian horsemen on the crest of the Pamirs has long haunted British statesmen. The thought of Russian influence in Afghanistan, and of possible Russian control over the Khyber Pass—a control which has seemed nearer realisation by the Bolsheviki than by their predecessors—is not a pleasant one for Great Britain. Kipling's warning against the "bear that walks like a man," treacherously waiting in the mountain passes on the northern boundary of India, still finds an echo.

One thing, however, is certain from the Russian note. The Soviets are desperately anxious to avoid a break with Britain, and will do anything to obtain recognition abroad. It is evidently dawning upon them that they can receive no help from the outside world unless and until they are prepared to "play the game" according to the accepted rules. These they are slow in learning.

Correspondence

LINCHENG AND RUHR

Editor, THE CHINA PRESS

Sir: I quite agree with you that the principle involved in the Lincheng incident is a serious one though the way you put the case daily before the public is getting on my nerves. Living over one thousand miles in the interior and unable to watch the developments from day to day I have however all confidence that the Sap people and other victims of the outrage at an early date will make their entry into Shanghai through a triumphal arch especially erected for this purpose, the costs being put on the indemnity bill which will be presented to the Peking Government as sure as the sun rises tomorrow.

To tell you the truth: there is too much advertising in the articles published by your correspondents especially by the new talent living in the Sanitarium Paotzekou 3000 feet above sea level. Having lived on chicken broth for weeks and being forced to take chow a la Paotzeku thereby rather healing than aggravating a well known Shanghai disease goes to show that the captivity has done good to some people after all.

I admire "Larry" who may soon become another Irvin Cobb or Samuel S. Blythe in God's country (dear Westa don't get jealous!) though I am getting a bit tired of his socks gone astray somewhere near the Tsinpu Railway.

In my opinion a little less noise and a little less space about Lincheng would surely have the same effect. One cannot help thinking that you people in Canton Road seem to have lost all sight of much bigger outrages which daily occur in the most civilised parts of the European Continent. I don't want to go into details. If it happens that you get the "Manchester Guardian" or some other broad-minded British or American newspapers take scissors and gum and put the cuttings in one-fifth of the "colyums" you are devoting to the Lincheng affair. This would be valuable service to mankind. I am afraid however that you are neither so "impartial" nor so "progressive" as Mr. Gardiner in Manchester.

I cannot conclude without referring to the self-sacrificing aid rendered by two Germans (Dr. Martens and Father Wilhelm Lanfers) to the captives whereas in the Ruhr incident five million captives are stretching out their hands for help in vain. Thanking you for this space, I am, dear Sir, Faithfully Yours

H. M. NIELSEN.

Make Your Hand-Shake Express More Than Words

BY J. J. MUNDY

Do not shake hands with a vicelike grip and do not give a flabby palm.

One is about as meaningless as the other.

The fellow who wants to make you believe he is a good fellow, that he has a good thing and wants to bait you on, thinks it is impressive to squeeze your hand.

That fellow shakes your hand because he wants to get something out of it.

The flabby handshaker is not pleased to meet you does not care for you, particularly, and does not extend the hand of good fellowship.

Shake hands with a hearty grip, but do not overdo it.

Let your grip be an expression of happiness and joy as the result of seeing a good friend or a person whom you are glad to meet.

Nothing is more disappointing than to shake hands with the person of limp wrist and puny grasp.

Hand shaking is a greeting.

Hand shaking is more expressive than words.

If it does not convey more than words it amounts to nothing.

"Save your eyes."

Dr. Frank Crane Says Business Is World's Hope

The present era is characterised by the rise of the business man. The time worn customs and ideas are being outgrown and universal recognition of so-called gentlemen and monarchs is giving away to the universal recognition that it is with the business man of today that the future of the world lies. Big business of today is based upon an honor and code of ethics far superior to that of the greatest monarchs which existed in the past. Business men of today are being recognised as those who support the world and the parasites which have clung to this group for ages are being done away with. The business man is truly coming into his own.

These are the outstanding thoughts expressed by Dr. Frank Crane of York City, popularly known as the "business man's philosopher." in an address before the Yokohama Business Men's Club at a luncheon held at the Grand Hotel. says the Japan Advertiser. The subject of his talk was "The Rise of the Modern Business Man." In his address he traced the growth of the movements and new schools of thought which have brought about the prominence of the business man today.

Dr. Crane was asked before he reached Japan to address the Yokohama business men, a cable having been sent to him while he was still several hundred miles off the Japan coast. On reaching Yokohama he consented. That the business community of Yokohama expected to hear a talk of unusual worth was evidenced by one of the largest attendances that has been recorded by the Yokohama organisation. A goodly portion of the main dining room of the hotel was filled by those who had come to hear Dr. Crane and among them were many representatives of the business community of Tokio. The speaker was introduced by Herbert Hall, president of the Yokohama club, who stated that the organisation had been fortunate in the past in obtaining prominent men to address it, but that on this occasion the zenith of success in this respect had been reached and that it was an especial pleasure to have the honor of introducing Dr. Crane to the business men of Yokohama.

Dr. Crane began his remarks by the statement that such a gathering as the Yokohama business men's club was unusual and that it was an expression of the change that has come over the world regarding the position in society of commercial men. He pointed out that 200 years ago such organisations were unheard of because business men had no standing and were looked upon as the lowest class in society and nothing but an aggregation of "liars and cheats" which had for its motto. "Let the buyer beware." He stated that the business man of today has come into great prominence because he has shown and proved to the world that he is the support of the universe and the man in whose hands the future of the human race lies.

"Some time ago Senator William E. Borah made the suggestion that a commission made up of business men from the Powers be formed to settle the muddled affairs of Europe. The suggestion never received serious consideration because it was in the hands of politicians and if they had approved the idea they would have been sanctioning the very factor that would in a short time put them out of their jobs. Business men go into a thing to bring about a decision. If this proposed commission had been allowed to take a hand in Europe the muddled situation there today would not exist and many politicians in the world today would be looking for a new job.

"Most of the politicians meddling in world affairs go to make up a group of the most incompetent individuals that can be gathered together. They are a crowd which get their positions because of their handshaking ability and incompetence along business lines.

"The past had a wrong idea toward work. It looked down upon it as a curse and belittled the men who did it. As a result nobility was created, that group which is a parasite on the world and whose trademark is idleness. The origin of the dress suit and the stiff shirt may be traced to this group which did not have to work and they proceeded to find a garb which advertised that they did not have to work, because when dressed in it they could do no work. These lifeless ideas have until recently been clung to and they have held the world down for centuries.

"But now a change is taking place and it is being recognised that the business man is the chief factor in the world and that business is being built upon a basis of honor which far exceeds that of the oldest and grandest monarchs that ever existed. Business is being done upon credit and as a result honor and personal confidence are becoming the major factors. Business is developing a code of ethics and many who in the past worked only for money that they might idle away their riches are beginning to realise that the good to be done with money is in the process of making it through the good that can be brought to the community. Henry Ford is a good example of this. He employs thousands of men and his success depends upon their success. While he is making his millions he is serving the community by enabling thousands of others to make their living.

"The future of the world rests with those who keep all men at work and who serve the community by so doing. A man is not paid by the amount of work he does but in proportion to the value of this work to the man who is paying him. The benefits are the real things which we are working for today and the world is getting better because it is growing away from the rotten and erroneous ideas of the past. The business man of today has a conscience and he is building his trade upon a clientele of satisfied consumers and he is finding that it pays. Service is the new and big idea. We are not here to make money and enjoy it but to work every day and find our happiness in so doing.

CHANGED IDEA OF DUTY

"The idea of God is changing. Before he was thought of as some powerful Monarch who idled away His time on some magnificent throne and did nothing. Now He is being considered as an all powerful influence which is at work day and night the world over and is so because of His love of service and expression of power. There is need for many changes today. Education must be revised so that it will make every man independent and able to serve. When business men assume complete control wars will cease and the so-called honor of nations will fade into the background because there will be nothing to bring it into the fore."

More Truth Than Poetry

BY WILLIAM F. KIRK

The measure of greatness changes
According to changed conditions;
We turn from the old endeavors
And learn to have new ambitions;
Our herbes are toppled over, and
the day of their glory's ended;
The pathways that once looked rosy soon cease to be recommended;
I remember when men believed
That greatness could be achieved
By shaking the hand that had shaken the hand that John L. extended.

In my youth I was fond of thinking
My looks were Napoleonic;
For a season or two I affected
An aspect I thought Byronic;
I have wished to become a wonder,
I have yielded to Fame's attraction,
I have hunted for situations that called for heroic action,
I've endeavored in many ways
To be worthy of public praise,
But I never have been successful in getting much satisfaction.

I have practised at tightrope-walking,
But found there was nothing to it,
For always too many others
Did it better than I could do it;
I haven't grown rich or famous;
however, I still aspire.
of a wonderful new desire—
And today I'm the fond possessor
I am sure I should be renowned
From Boston to Puget Sound
If I could become a client of
Samuel Untermyer.

BACKWARD BABIES
Begin To Thrive When Baby's Own Tablets Are Used

Derangement of the stomach and bowels is responsible for most of the ailments which trouble infants and young children and keep them backward in development. Baby's Own Tablets clear the stomach and bowels in a thorough yet gentle manner, and this is all that is necessary in most cases to restore the little sufferer to happy, rosy health.

"Until I began using Baby's Own Tablets my baby was always constipated and was restless and sleepless," writes Mrs. Ford, of 301 Colborne St., London, Ontario. "I tried several medicines but they did not help her. Since using the Tablets her bowels have been quite regular and she sleeps well. My eldest child had a poor appetite, but since having given her the Tablets her appetite has improved and she has grown stronger. I would not be without the Tablets for anything."

Baby's Own Tablets dispel constipation, check diarrhoea, reduce fever, cure colic, and indigestion; allay teething pains, expel worms, quiet the nerves and promote health-giving sleep. Your chemist sells them, or post free, 60 cents the vial ($3.00 for six) from Dr. Williams' Medicine Co., 60 Kiangse Road, Shanghai.

It is the most durable of all decorations, lasting for years with freshness unimpaired, whereas wall-papers deteriorate from the first day by fading and accumulating dust and dirt.

Hall's Distemper is a thorough disinfectant, and is applied directly upon the wall, forming a hard surface, from which dust and dirt may be "spring-cleaned" by lightly sponging with warm water.

Across The Breakfast Table

By Mr. And Mrs. W. L. George

Wayward Husbands

Mr. George: I heard last night at the club that Doris is really going to divorce her husband. It's really rather dreadful, for everybody thought they were so happy. Of course, I know there's been a good deal of talk, and he was wrong to let it grow into a real scandal, but all the same, you know, Bertram is a charming fellow, popular, successful and awfully generous to Doris. On the whole I'm not sure whether women aren't sometimes foolish to get so awfully excited about an....let us say, an erratic husband if he's good to them otherwise.

Mrs. George: Well, darling, I don't know if you're wayward, but if I find you out I'll divorce you. No, don't murmur "puritan" under your breath; I don't care how wayward you were before you married, but after marriage a man doesn't run after other women if he loves his wife. You say he's nice to Doris! If he's nice he's not sincere, and of course Doris has noticed that. And you say he's generous. Of course he's generous since he can afford to be. And I'll tell you something else: a man's generous to his wife when he's got no love to give her.

Mr. George: I'll remember that. Will you have a little more love and a smaller allowance? But, seriously, it's a question of alternatives for Doris. What one wants to know is whether she'll be happier without Bertram, whether she still cares for him. If she does, then she's a fool to let him go, because as time goes by she may get him back. Men don't look upon these things quite so severely as women, and women can't get on with us unless they understand that, and unless they make up their minds to treat masculine waywardness with a little charity.

All Prospects Point To Small U. S. Cotton Crop

(Reuter's Service)

New York, June 1.—The cotton trade seems to have reached the conclusion that only the most perfect weather for the balance of the season can prevent another small cotton crop with attendant high prices, especially if Europe recovers enough to resume even a fair proportion of its normal purchases. At the same time here and there is found one who takes a more optimistic view of the situation, as for instance a prominent up-town operator who is preparing to leave for a vacation in the Orient.

He points to the season of 1920-21 as illustrating what the crop can do from a low start. The June condition (as of May 25) that season was 62.4, the acreage was around 37,043,000 and the crop, including linters, 13,692,975 bales. Few can be found this spring however, who will admit the possibilities of a thirteen million crop with the usual average of weather for the rest of the season. For this season, the market is seeking an adjustment of values on the basis of a possible yield of not over 12,500,000 bales, and probably less.

Those who are concerned about the balance of the season, up to the time the new crop begins to move, are finding some consolation in the present small exports and the curtailment of an increasing number of New England mills. A Boston bank points out that if exports and domestic consumption during the rest of the season should be at the same rate as in the month of April there would be about 1,600,000 bales left in the country on July 31.

LARGER CARRY OVER

The drop in exports and consumption, however, makes it seem probable, at this writing, that a somewhat larger amount than this will be carried over. Stock at the ports is now less than 400,000 bales for the first time this season, comparing with nearly 900,000 last year. Owing to the lateness of the new crop, it is expected that these stocks will reach a very small figure before the new cotton begins to move.

Some experts advocate the stoppage of at least 25 percent of the spindles to avert an acute famine in raw material. The curtailment thus far has affected about 1,000,000 spindles in Fall River, 500,000 in New Bedford, 150,000 in Maine and not in excess of 300,000 scattered in other parts of New England. Rumors late in the week to the effect that the settlement of the Ruhr question between France and Germany was imminent gave an added interest to calculations about the possible carry-over as such a development would doubtless considerably increase the buying power of Europe. Nevertheless, the trend of sentiment in cotton circles is increasingly bending towards the new crop outlook.

If there is to be another short crop following the last, very high prices might easily be seen. It is evident, however, and this is particularly true of Texas, that farmers will make the most strenuous efforts this year to produce a good crop. With a spell of good weather in the next month or two, the character of crop advices might easily lose much of their bullishness, although it will be hard to convince the average trader that any crop large enough to bring about a substantial decline can be grown this season regardless of the weather. The boll weevil must of course be reckoned with.

WEEVIL DAMAGE

It has not appeared in any great numbers as yet, for the plant is not large enough for it to feed upon, but unless checked by the weather, it is generally believed that its depredations this season will be unusually heavy. One house, commenting on the crop possibilities, declares that they point to another year of scarcity with prices maintained as a minimum somewhere around the level to which we have become accustomed, and "with considerable probability that at some time the highs of last season may be attained again and perhaps surpassed.

"The season will start with a couple of million bales less in the world than last year, and with industry a year nearer to the final recovery from the results of the war." The labor problem seems to be more acute in the Eastern belt than elsewhere, even in the Mississippi valley. Unquestionably a very large number of negroes have left the fields for the North, but planters are now fully aroused over the menace and are endeavoring to counteract the emigration by pointing out the hardships that must be endured in a climate and a section to which the Southern negro is unfamiliar.

There is another angle to this situation also, which has not been hitherto mentioned, and that is the fact that more white people have been seeking the more genial Southern climate than ever before. Many of these are taking up farms in Georgia and Alabama, and a Georgia paper says "one thrifty hustling Yankee who comes South on a farm is worth half a dozen negroes who may be leaving."

CASTORIA
for Infants and Children.
Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs will produce sleep, and a few drops too many will produce the sleep from which there is no waking. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labeling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician knowing of what it is composed. Castoria does not contain narcotics.

(BY UNITED PRESS)
Special to The China Press
New York, June 23.—Thirty thousand whiterobed and hooded members of the Klu Klux Klan are gathering on Long Island for the initiation of nine hundred neophytes in the secret order.

White robes and flaming crosses are to be seen on all sides and the police to date have made no effort to break up the gathering.

Many of the Klu Klux members have come from all over the United States to witness the mystic ceremonial.

The newspapers all over the country, but especially in New York, are commenting on the affair.

THOUGHT

It is said that

Some men use language to conceal thought but its been our experience that a good many more use it *instead* of thought.

We prefer plain language.

Twelve dollars a month is not a large sum of money and yet that amount saved monthly for fourteen years gives your a paid up **$2.000** bond

PLUS

enormous possibilities of receiving reimbursements from **$12** to

$18,000 or more.
